

2016 TO 2017

Overview

Know your - CCE

A heritage of over 5 years in the services, starting from 2007, CCE is one among the pioneers in this field with over 0.7 millions satisfied students & over one thousand IT Learning Centres to its credit. Our customers' experience is through our people and their performance, which result in an outstanding track record of success. These are the achievements that influence customers to trust us. The relationships which cause our customers to return to us year after year are built by our people.

CCE is one of the leading brands in the computer education sector, and holds national and international status. CCE members are proud of a decade legacy in providing quality education and training in computer technology and advanced IT courses.

CCE also offers many tailor made computer courses that are part of International Certification from Mauritius and Australia. It also has ISO and ICAL certifications for providing quality services to the user. CCE operates through multi-locations offices in India and international offices across the world. The institute provides a rigorous, intellectually challenging curriculum with flexibility to allow students to tailor their education to meet their professional and personal interests and goals.

CCE has emerged as one of the best source of technical education in India in just ten years. It provides a collaborative learning environment that weaves technology and management into everyday life. .

CCE is known for philanthropic approach among youth, offering them all computer courses in nominal fee-structure. It provides a collaborative learning environment that weaves technology and management into everyday life. .

Our innovative academic programs incorporate a tradition of academic excellence and experimental learning with an emphasis on team-work. The institute's environment instills the skills needed to succeed in a competitive global environment. We imbibe capabilities of working in diversified fields with creativity, imagination and perseverance in our students.

We actively explore and develop new methodologies such as alternative teaching techniques and learning approaches that promote thinking skills and lifelong learning habits.

Objective

Objectively enlighten the entire civilian population with the update Computer knowledge & skills, through the learning & training units established & authorized by **complete computer education -CCE**, in the locality and also throughout the Nation at minimum affordable fee.

Major Assignments

Monitor global IT developments and refine Indian IT policy to meet global requirements. Specifically, this will help angel investors, venture creators and incubation;

Promote the growth of human resource development in the IT sector with the aim of creating quality-based education;

Promote R&D in the sector by identifying thrust areas and drawing up a blueprint for action.

The mission is managed by a group of passionate IT leaders & professionals

Vision

Creation of a Healthy World of IT & ITES across the Nation through a Constructive approach to in build comprehensive knowledge and the code of conduct of the corporate governance.

CCE is committed to the **Vision**

A Built-In Support System

Built-In Support System >Finally, CCE provides new business owners with a built-in support system – a safety net to assist them in building a business they can be proud of. This is a particularly important benefit for business owners who have little or no experience in business ownership or business owners who have limited experience in their industry. Before you decide on a specific franchise, talk with the franchisor representative about how much support you can expect to receive after you start doing business. In most cases you'll find that the CCE will be willing to help you as much as we are able, every step of the way. CCE helps franchisees develop a business plan. Many elements of the plan are standard operating procedures established by CCE. The most difficult part of a new business is its start-up, since even experienced managers lack the knowledge to set up a new business

3 Months Courses

Course Code	Course Name	Content
CCB	Certificate in Computer Basics	Computer Fundamentals

		<ul style="list-style-type: none"> • Windows Win7/Win8 • Office 2007 • Word • Excel • Powerpoint • Internet
